Are your daily actions bringing you closer to your goals? If not, do not expect the things in your life you need and want changed, to change. It feels comforting to hear motivational speakers tell you how to achieve the goals to make your life prosperous. It is inspiring to read books and articles on how to overcome the challenges in life to achieve your desired goals. But, the key to achieving any goal is putting feet to your faith.

1. Goals create a road map for success
2. The process of writing your goals helps you clarify what you desire to do, understand the importance of pursuing them
3. Goals help you to determine priorities and direct you to focus on what is important.

REMEMBER

***“What you get by achieving your goals is not as important as what you become by achieving your goals”***
